A GASTRONOMICAL JOURNEY THROUGH *the Silk Route*

For centuries, the Silk Road united the Eastern and Western worlds. This legendary road was not only for traders, but also travelers from different social and professional backgrounds. Not only the prized silk was exchanged then, but also knowledge, customs and, of course, flavors that changed the culinary history of Europe.

Ingredients such as rice, tea and pasta, and new culinary techniques that arrived at our tables created a fusion of scents, textures and traditions that continue to delight us up to nowadays.

We invite you to embark on a sensory journey through the flavors that traveled this ancient path. Each dish of our tasting menu is inspired by those cultural exchanges that marked the gastronomy of different époques.

Get ready to taste the legacy of the mythic Silk Road.

TASTING *Menu*
